To Whom It May Concern ;

This is a letter of Recommendation we are writing to offer my strongest recommendation for Mr.Abdul Rahman Rahmatullah

We are al-Shohada secondary school. Abdul Rahman was one of those students who studied here and had a positive impact to improve the school as an active member. He has got lots of skills and he used them all for amazingly to serve Scholastic activities. Abdul Rahman participated in the competition for top students of second secondary grade "Scientific Section " and he succeeded in this competition and got the-fifth at the level and the-seventh at the level in third secondary grade. We have other competitions in giving a speech, and Abdul Rahman was one of the best in public speaking, so he got the fourth at the level in our district, and he is a good speaker. He got a lot of certificates of appreciation therein. Abdul Rahman was one of the elite students in his studying, so he was one of those who passed in the programming test, and we have no doubt that he is a hard-working person who is capable of performing different tasks with ultimate professionalism. Abdul Rahman's Scholastic performance is really clear from the observation in his scholastic activism, he always does his best at any tasks and innovate brilliant ideas in our school. Abdul Rahman is a source of motivation and inspiration for so many .students especially newcomers to our school

At the end, for all reasons are mentioned above, I have no doubt that Abdul Rahman is an ideal candidate for a Bachelor's degree in Turkey, for he is not only a committed and diligent person, but also because he always shows desire to share his experience and knowledge with others, and he feels obligated to play a role in working towards .progress in the society and country
